

Oneonta City Schools Chromebook Policies, Procedures, and Information

2024-2025

The focus of the 1:1 Chromebook Initiative at Oneonta City Schools is to provide tools and resources for the 21st Century Learner. Excellence in education requires that technology is seamlessly integrated throughout the educational curricula. Increasing access to technology is essential to build upon college and career readiness skills. The individual use of Chromebooks is a way to empower students to maximize their potential and prepare them for college and the workplace.

Learning results from the continuous dynamic interaction among students, educators, parents and the extended community. Technology immersion does not diminish the vital role of the teacher. On the contrary, it transforms the teacher from a director of learning to a facilitator of learning. Effective teaching and learning with Chromebooks integrates technology into the curriculum anytime, anyplace.

The policies, procedures, and information within this document apply to Chromebooks as well as all other school-owned devices used at Oneonta City Schools considered by the Administration to come under this policy.

Students are responsible for the general care of their school-issued. Chromebooks that are broken or fail to work properly must be taken to the Oneonta City Schools Technology Room for an evaluation of the equipment.

2.1 General Precautions

- The Chromebook is school property and all users will follow this policy and the Oneonta City Schools Internet Usage and Equipment Policy.
- Only use a clean, soft cloth to clean the screen, no cleansers of any type.
- Cords and cables must be inserted carefully into the Chromebook to prevent damage.
- Chromebooks must remain free of any writing, drawing, stickers, or labels that are not the property of Oneonta City Schools.
- Chromebooks must never be left in an unlocked locker or any unsupervised area.
- Students are responsible for keeping their Chromebook's battery charged for school each day.
- Chromebooks are sensitive to extreme heat and extreme cold therefore leaving devices in cars, direct sunlight, etc. that may expose them to these conditions is potentially harmful to the device and should be avoided.
- Do not stack any books, heavy materials, etc. on top of the Chromebook, as it can cause the device to break.
- Do not store items between the Chromebook screen and case (earbuds, pencils, school-work, etc.), as it can cause screen damage.

2.2 Carrying Chromebooks

A protective case/sleeve protects Chromebooks from normal wear and tear and provides a suitable means for carrying the device within the school.

The following guidelines below should be followed:

- Chromebooks **MUST** always remain within the school-issued case.
- Chromebooks **MUST** be closed during hallway transitions throughout the school day.
- Avoid carrying Chromebooks in overfilled backpacks to avoid placing too much pressure and weight on the Chromebook screen.

2.3 Screen Care

The Chromebook screens can be damaged if subjected to rough treatment. The screens are particularly sensitive to damage from excessive pressure on the screen.

- Do not lean on the top of the Chromebook when it is closed.
- Do not place anything near the Chromebook that could put pressure on the screen.
- Do not place anything in the protective case that will press against the cover.
- Clean the screen with a soft, dry cloth or anti-static cloth
- Do not "bump" the Chromebook against lockers, walls, car doors, floors, etc., as it will eventually break the screen.
- When carrying the Chromebook inside a backpack, do not lean against the backpack, drop or sit on the backpack.

3. USING YOUR CHROMEBOOK AT SCHOOL

Chromebooks are intended for academic use at school each day. In addition to teacher expectations for Chromebook use, school messages, announcements, calendars, and schedules may be accessed using the Chromebook. Students must be responsible to bring their Chromebook to all classes, unless specifically instructed not to do so by their teacher.

3.1 Chromebooks Left at Home

- If students leave their Chromebook at home, they are responsible for completing course work as if they had their Chromebook. Students will not be allowed to borrow a Chromebook.

- Students may be issued a loaner Chromebook when they leave their Chromebooks for repair in the Technology Room.
- Loaner Chromebooks may be issued for use in school during repair.

- Inappropriate media should not be on the device and may not be used as a screensaver or background photo.
- Presence of guns, weapons, pornographic materials, inappropriate language, alcohol, drug, gang related symbols or pictures, or any other image deemed inappropriate will result in disciplinary actions and may also result in a loss of Chromebook privileges.
- Only images used for educational purposes should be saved to the device. All other photos/videos should not be taken or stored.

3.6 Printing

- Printing will not be available at school with the Chromebook. Students should submit assignments to their teachers electronically according to the teacher's instructions.

3.7 Home Internet Access

- Students are allowed to set up access to home wireless networks on their Chromebooks. However, Oneonta City Schools Technology Department cannot offer support with home network connection.

- It is the student's responsibility to ensure that work is backed up and, therefore, not lost due to mechanical failure or accidental deletion.
- Chromebook malfunctions are not an acceptable excuse for not submitting work.

4.2 Network Connectivity

- Oneonta City Schools makes no guarantee that their network will be operational 100% of the time. In the rare case that the network is down, the District will not be responsible for

lost or missing data.

- Students will not be penalized if the network is down and a completed assignment cannot be accessed for class projects, presentations, etc. as this type of network outage will affect all students and staff in the school building.

5. APPS AND EXTENSIONS ON CHROMEBOOK

5.1 Originally Installed Software

- The Extensions/Apps originally installed by Oneonta City Schools must remain on the Chromebook in usable condition and be easily accessible at all times.

5.2 Additional Software

- Students may be allowed to install extra extensions/Apps on their Chromebooks. As stated in Section 3.5, the district monitors and removes apps as needed.
- Students are responsible for the web apps and extensions they install on their Chromebooks. Apps and other media must be appropriate per the system's Internet Usage and Equipment Policy and student handbook. Students will be asked to remove apps and media if deemed inappropriate. These apps/extensions will be available upon logging into the device using the official school approved email address.
- Any attempt to "jailbreak" or "hack" the Chromebook or change the configuration will result in an immediate disciplinary action.

9. TECHNOLOGY DOCUMENTS

INTERNET USAGE AND EQUIPMENT AGREEMENT

Access to Technology Resources Policy

In order to enhance educational opportunities for its students and for employees to be able to work in a professional and intellectually-stimulating environment, it shall be the policy of the Oneonta City Board of Education to permit access to and use of developing technology equipment and resources, including but not limited to, the Internet. Such access and use shall be restricted to faculty, students, and other persons who are engaged in bona fide educational and administrative activities which serve and are consistent with identified educational objectives and authorized support functions. To those ends, the Oneonta City Board of Education is authorized to establish and impose reasonable rules and regulations regarding access to and use of school-based technology equipment and resources and to require adherence to said rules and regulations through such means as the "Internet Usage and Equipment Agreement" and by the application of appropriate disciplinary policies and procedures.

Statement of Caution and Consequences

Board policy restricts access to and use of technology equipment and resources, including the Internet, to instructional and related purposes with the intent to further educational goals and objectives. However, because of the nature of the technology, it is impossible to ensure that a user's intent upon doing so will not be able to gain access to unsuitable material and data through misuse of computers or the Internet. Oneonta City Schools (OCS) system subscribes to a filtering service to filter or block inappropriate Internet access. Thus, it is the intention of OCS that all technology resources will be used in accordance with any and all school system policies and procedures as well as local, state and federal laws. Internet activity can and will be monitored, along with other aspects of technology usage. Successful or unsuccessful attempts to bypass the Internet filter, misuse of equipment, access to prohibited sites by using proxies or other resources are a violation of this agreement and may result in denial or cancellation of access privileges and are subject to disciplinary action in accordance with the Code of Student Conduct and other applicable policies and regulations. Users are also subject to any civil penalties or criminal sanctions that may arise from unlawful use of the Internet.

Regulations Regarding the Use of Internet Resources

1. Acceptable Use. The use of technology equipment and resources, including the Internet, must be in support of education or research, through the provision of unique resources and opportunities for collaboration among students, teachers and administrators. Use of the Internet must be in support of this and consistent with the educational objectives of the school. Non-educational use may be limited by faculty/staff. Transmission or receipt of any material in violation of any state or federal law is prohibited.

2. Privileges and Expectations of Users. The use of equipment, the OCS network and the Internet is a privilege, not a right, and unauthorized, abusive or inappropriate use may result in restriction or cancellation of those privileges. Users are expected to take proper care of technology equipment and resources. Users of the network will not use their account to obtain, post, view, download or otherwise gain access to potentially objectionable materials such as any defamatory, inaccurate, abusive, violent, obscene, profane, sexually oriented, threatening, racially offensive, or illegal material. Such conduct would include, but is not limited to, placing unlawful information on or through the schools' computer network, accessing another person's files or e-mail, and using obscene, abusive, or otherwise

objectionable language or images in either public or private files or messages. Users of OCS technology resources must be aware that OCS cannot assume any liability arising out of the illegal or inappropriate use of technology resources.

Students and staff are responsible for appropriate, good behavior on school computer networks and the Internet just as they are in a classroom or on school property. General school rules for behavior and communication apply. It is understood that parents/guardians of minors are responsible for setting and conveying the values that are above the school standards that their children should follow when using media and information sources. Because communications on the network, e-mail, chat rooms and other forms of direct electronic communications are often public in nature, all users should be careful to maintain appropriate and responsible standards. There can be no assurance that e-mail or other forms of direct electronic communication will be confidential and/or private. All users should be aware that information sent via e-mail, in documents, or other means are considered legal documents and can be subpoenaed. All correspondence should be professional in nature. All staff members should follow appropriate behavior standards and maintain the utmost professionalism when posting information on social media sites, web-sites, and during any personal communication relating to school, student, or personal issues whether it is through the OCS network or an outside network.

Safe Internet practices should always be followed. Never disclose personal information and never plan to meet anyone encountered online. Access to network service will be provided only to students and employees who agree to act in a considerate and responsible manner. To that end, OCS supports and respects each family's right to decide whether or not to apply for independent access. To gain access, all students must obtain parental permission and must sign and return the Internet Usage and Equipment Agreement form. All employees must sign the Internet Usage and Equipment Agreement Form.

3. Personal Devices. These Internet usage and equipment policies and procedures pertain to technology equipment personally owned by school employees and students which are brought into school facilities. All personal technologies used on the OCS campus are subject to this agreement and may be used only if such use is in compliance with all school system policies, procedures, and guidelines as well as local, state and federal laws. (This also includes any external storage medium including Dropbox, Google Docs or similar online storage.) Staff and students are required to sign the Internet Usage and Equipment Agreement to gain access to the OCS network, the Internet, and other technology resources. Attempts to circumvent defined procedures to access to the OCS network on personal devices without proper authority may result in disciplinary action for students or staff. OCS is not responsible for any hardware or software damage or repair to personal devices on the OCS network.

4. Network and E-Mail Guidelines. OCS network and Internet users are expected to abide by the generally accepted rules of network etiquette and are expected to act in a considerate and responsible manner. The following infractions are not permitted on any OCS computer, computer network, personal device accessing the OCS network, the Internet or any technology resource. INFORMATION CONCERNING WEB APPS

Web Apps refer to an application that utilizes web and web browser technologies to accomplish a task over a network through a web browser. The teachers at OCS will utilize many web apps during instruction.

Oneonta City Schools utilizes G Suite for Education for students and teachers. These services include, but are not limited to:

- **Mail**—an individual email account for school use managed by Oneonta City Schools
- **Drive**—a file storage system which allows users to create (docs, sheets, slides, sites, etc.) and store files in the cloud, synchronize files across devices, and share files
- **Calendar**—an individual calendar providing the ability to organize schedules, daily activities, and assignments

Schoology and/or Google Classroom will serve as the learning management system for OCS students. The learning management system allows teachers to plan, implement, and assess learning processes. Through the LMS, teachers are provided a way to create and deliver content, monitor student participation, and assess student performance.

Using these tools and others, students collaboratively create, edit and share files and websites for school related projects and communicate via email with other students and teachers. These services are entirely online and are available 24/7 from any Internet-connected computer.

All students will be assigned an e-mail address (*username@ocsredskins.com*). This account will be considered the student's official OCS email address until such time as the student is no longer enrolled at Oneonta City Schools. Use of this account will be governed by the Internet Usage Policy and Chromebook Policies.
